SHINIQUE Booster Kit

Precision care - four elixirs that turn every treatment into a masterpiece.

SHINIQUE BOOSTER KIT is an advanced system for personalising repair and smoothing treatments. Four technologically refined boosters enrich masks, BTX treatments and straightening treatments with concentrated active ingredients, adapting their action to each client's individual hair needs.

WHO IS IT FOR

- Bleached, coloured and dry hair.
- Brittle hair weakened by chemical or heat treatments.
- Clients who need immediate repair in a short time.

ACTIVE INGREDIENTS AND ACTION

Hydration Elixir - Glycerin, murumuru butter, cetearyl alcohol - intense hydration, cuticle smoothing and elasticity.

Nutritive Elixir - A complex of 20 amino acids, Sodium PCA - nourishment, strengthening of the protein structure and resilience.

Reconstruction Elixir - Hydrolysed keratin, amino acid complex - reconstruction of the fibre from within and rebuilding of disulphide bonds.

Emollient Elixir - Shea butter, panthenol, emollients - softness, shine and protection against frizz.

HOW TO USE - TECHNICAL GUIDANCE

RATIO: Use 10 ml of booster per 50 g of mask, botox or straightening product. You can combine 2-3 boosters in one treatment.

MIX AND USE ACCORDING TO THE INSTRUCTIONS FOR THE MAIN BASE PRODUCT. If using Elixir Booster only with a conditioner or mask, **leave the mixture on the hair for 5-10 minutes.**

DO NOT USE PURE BOOSTERS WITHOUT A BASE - they are too concentrated.

THEY WORK BETTER WITH HEAT - ultrasonic hair treatment device, cap, hairdryer, hair steamer or infrared processor.

IDEAL COMBINATIONS:
Straightening products, nourishing botox treatments and masks. **Do not add them to hair dyes.**

Shine + smoothing | Repair + reconstruction | Nourishment + strengthening | Hydration + elasticity
